PROFESSIONAL SUMMARY

Backend-focused software engineer with hands-on experience shipping scalable APIs, AI/GenAI-powered applications, and RAG pipelines for production systems. Skilled in Python, FastAPI, Django REST Framework, ASP.NET Core, PostgreSQL, SQL Server, and React, with a track record of integrating LLMs into real business workflows and improving system performance and reliability.

PROFESSIONAL EXPERIENCE

SDE 1 — Formi **Aug 2025 – Present**
Mumbai, India

- Developed scalable backend services using Python, FastAPI, ASP.NET Core, REST APIs, Redis caching, and optimized database queries.
- Integrated OpenAI APIs, LangChain, and LangGraph into production applications, automating multi-step workflows for enterprise clients.
- Built RAG pipelines using embeddings and vector search to deliver context-aware responses from enterprise knowledge bases.
- Developed APIs using Django REST Framework and FastAPI for AI services, authentication, CRM workflows, and third-party integrations.
- Designed PostgreSQL schemas and backend workflows focused on performance, reliability, and data consistency.
- Built React.js and TypeScript modules that improved user engagement by 40%.
- Supported deployments and troubleshooting using Docker, GitHub Actions, CI/CD, Google Cloud Logs Explorer, AWS EC2, and AWS S3.

Full Stack Developer — Distinct Digital Solution — Tech & Social Media Team **Oct 2023 – Jun 2025**
Mumbai, Maharashtra

- Developed enterprise web applications using ASP.NET Core, C#, JavaScript, SQL Server, and REST APIs.
- Designed backend modules and integrated 20+ REST APIs for third-party systems.
- Implemented OAuth 2.0 and JWT-based authentication and authorization across applications.
- Optimized SQL queries, indexes, and stored procedures, improving database performance by 45%.
- Built responsive interfaces using HTML5, CSS3, JavaScript, jQuery, and Bootstrap.
- Participated in architecture discussions, code reviews, debugging, and Agile production deployments.

SELECTED PROJECTS

The Machan — AI Chatbot & Agent CRM Integration
Python, FastAPI, OpenAI/LLM, Knowledge Base, CRM, Voice AI

- Integrated a knowledge-base-driven chatbot with LLM fallback for advanced response generation.
- Developed backend APIs connecting chatbot functionality with platform workflows, providing CRM capabilities for voice agents.

Jaro — Automated Lead Scraping & Platform Integration
Python, Web Scraping, FastAPI, REST APIs, PostgreSQL

- Built a website lead-scraping workflow that automated lead transfer to the platform, eliminating manual CSV uploads.
- Implemented data mapping, validation, API ingestion, error handling, and duplicate-data checks.

Banking & Finance — Digital KYC / eKYC Workflow
Python, FastAPI, REST APIs, Video KYC, Document Scanning

- Contributed to an online video-KYC workflow covering customer information capture, document scanning, validation, and review.

LEADERSHIP & INITIATIVES

Technical Team Lead Responsibilities — Formi

- Led a team of 2 developers, assigned tasks, and ensured timely project delivery.
- Mentored 3 interns across frontend and backend development.

TECHNICAL SKILLS

Languages: Python, C#, SQL, JavaScript, TypeScript

AI / GenAI: LangChain, RAG, MCP, Function Calling, Tool Calling, Embeddings, Semantic Search, Prompt Engineering, LLMs, PyTorch, TensorFlow

Backend & Databases: FastAPI, Django REST Framework, ASP.NET Core, REST APIs, PostgreSQL, SQL Server, Redis

DevOps & Tools: Swagger, OpenAPI, Postman, Git, GitHub, JIRA, Docker, GitHub Actions, CI/CD, Google Cloud, AWS EC2, AWS S3

Frontend: React.js, TypeScript, JavaScript, HTML5, CSS3, jQuery, Bootstrap

Soft Skills: Problem Solving, Team Leadership, Client Communication, Technical Documentation, Analytical Thinking, Collaboration

EDUCATION

Bachelor of Engineering — Electronics and Telecommunication Engineering
K. J. Somaiya Institute of Technology, Mumbai
